

Objectives of CHEMOSVIT FOLIE, s.r.o. in the field of Integrated Management Systems for 2020

ENVIRONMENT MANAGEMENT SYSTEM

According to valid Certificate EN ISO 14001:2015 SK12/1814

- to keep the specific PTW production below 140 kg per a tonne of production
/PTW = plastic technological waste/
- to keep the amount of total landfilled waste out of the total material waste at 10%
- to keep the ratio of PTW recovered materially, energetically and by recycling, to the landfilled waste amount at the level of 99:1

ENERGY MANAGEMENT SYSTEM

According to valid EN ISO Certificate 50001:2018 SK19/3126

- to reduce year-on-year overhead electricity consumption (lighting and air-conditioning of premises in kWh / m2) by 1.5%
- to reduce total year-on-year heat consumption (GJ/m3) by 3%
- to reduce total year-on-year chill consumption by 3%
- to reduce year-on-year gas consumption of ENVITHERM 100/5 (including EKOMAT 2500 boiler) per a tonne of gross production (Nm3/t) in rotogravure printing department by 10%

PRODUCT SAFETY MANAGEMENT

According to valid EN ISO Certificate 22000:2018 SK10/1011

- to keep the percentage of non-compliant measurements to the total number of measurements of jobs with total residual solvents content > 20 mg/m2 below 4.5%

OHSAS

According to the valid Certificate OHSAS 18001:2007 SK12/1815

- by reducing potential sources of danger related to the type of work and technology employed, to keep the occupational accident index below 9
- to prepare and successfully pass certification audit focused on transition from OHSAS 18007 to ISO 45001

QUALITY MANAGEMENT SYSTEM

According to valid EN ISO Certificate 9001:2015 SK12/1813

AREA OF COMPLAINTS

- to keep the complaint index defined as the ratio of the claim costs to the value invoiced, below 0.30%

AREA OF INTERNAL NON-COMPLIANT PRODUCTION

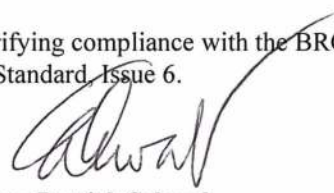

- to keep the total summary index of losses resulting from the disposed material included in the C-Code to the total produced amount below 0.24%
- to keep the proportion of non-conforming cylinders to total produced amount below 3.0%
- to keep the proportion of non-conforming clichés in m2 to total produced amount below 0.3%

PACKAGING MATERIALS STANDARD (BRC)

According to valid Certificate BRC SK14/2169

- to prepare and successfully pass certification audit aimed at verifying compliance with the BRC Global Packaging and Packaging Materials Standard as required by the revised BRC Standard, Issue 6.

At Svit, date 25 March 2020

Ing. Patrick Schwab
Company Director
